INTRODUCTORY

We take pleasure in presenting for the consideration of our patrons and the public, the sixth revised edition of our Provo City and Utah County Directory.

This directory contains all the features of previous editions and is gotten up with the same painstaking efforts which characterize all our works.

The population of Provo and its environs, including the benches, as estimated from the names contained in this section of the book, is 9,648.

Attention is called to the General Index (page 7), which will be found helpful in looking up any desired information.

For the loyal support given us by the business houses of the entire county, in continued advertising, and for the cheerfulness in furnishing information for these pages by the general public, the publishers desire to express grateful appreciation.

When You Travel East

Don't buy your ticket via a broken route—part one system and part another. *Tell the ticket agent you want to go "through via the Overland as far as it goes."*

There are Reasons for this Suggestion—

There is through train service via the direct route, the route is the shortest, equipment is as good as money can buy, the roadbed is substantial, new and dependable, and *every mile of the way is protected by electric block signals.*

In merchandising you buy the best you can get for your money. *When you travel, buy the best. It costs no more.*
